

4K Android player designed for TEOS

# Make every display smarter

**Add TEOS corporate workspace applications to any display device with this slim, compact 4K Android Player.**

TEOS Player TEP-TX5 connects via HDMI to any display – including non-Sony flat panel screens and projectors – giving instant access the full range of TEOS workspace solution plus a world of Android apps. Integration's simple, with no tricky set-up required. With support for 4K 60p and HDR, all your apps and content look their very best on compatible 4K displays and projectors.

TEOS Player is compatible with a suite of applications, including digital signage and TEOS Connect\*. Applications are controlled over the network from TEOS Manage, the complete display device and workspace management solution that is powerful, flexible and easy to use. Other Android apps can be installed and accessed via Google Play.
