- Slideholder for 3 Slides up to 3,2 mm thickness
- Filmholder for filmstrips up to 6 images
- USB- and TV Out Cable
- Lithium Battery
- AC Adaptor
- User manual
- Image Editing program (Medialmpression 2)

With a resolution of 5 megapixel and an extremely **fast scan time** of 1 second for a scan, the **reflecta x9-Scan** provides top quality scans.

The scanner is **PC independent**, it's not possible to scan via PC.

Due to the supplied **lithium battery or AC adaptor**, the scanner can be used anywhere. The scanned images are stored on a **SD/SDHC card** (not included) and can be viewed on the **2.4" LCD Display** immediately.

Negatives are automatically converted into positives.

Using the USB cable, it is possible to read-out the scans on the PC and if desired edit them with the supplied image editing program. Also a **view on TV** is possible.

By using the **film and slide holder** you achieve **scan efficiency** and also save time.
