

Nuvo® P600 Player & P601 Power Supply

The P600 is the world's first streaming music player designed specifically for the International DIN rail mounting standard. It gives any room instant access to endless music options from networked collections or a variety of internet radio and streaming services. The P600, which is compatible with all other products in the Nuvo Player Portfolio, supplies 2x20 watts of Class D digital amplification for a single zone of powerful audio.

Features of the P600 DIN Rail Player:

- Built-in access to networked audio content, music stored on iOS or Android devices, or a variety of streaming services – Spotify, iHeartRadio, Napster, Pandora, Deezer, TuneIn, and SiriusXM
- Convenient control is always at hand with intuitive Nuvo Player app for iOS and Android mobile devices
- Optional in-wall Keypads and Touch Screen provide a fixed-location control point
- Designed for the International DIN rail mounting standard, the P600 allows flexible and efficient installations
- Efficient Class D amplifiers provide 40 watts of power at 4, 6, or 8 ohms to a single zone
- Seamless integration into advanced automation systems from KNX, Crestron, Control4, Elan, RTI, Vantage, and more
- Remote network and device management when used with Domotz Pro
- Powered by the P601 Power Supply which can be used to power up to four P600 Players
