

reflecta Mains Video Light DR 300

The modern **Mains Video Light reflecta DR 300** is the ideal illumination source for Video films. The built-in **fan** makes it **suitable for permanent operation**. You will never be confronted with over-heated or weak batteries. The video light DR 300 can **be turned towards the ceiling at its full output of 300 watt**. The **power can be set in two steps** of either 150 W as focussing light or 300 W for full output. **300 Watt guarantees** a constant **colour temperature of 3400° Kelvin**.

reflecta Mains Video Light DR 300
