## Crystal LED Flexible Stand Kit

Transform any space into a hub of creative collaboration. This stylish height-adjustable stand is compatible with Sony's Crystal LED display to produce a stunning 138-inch video wall that's great for corporate presentations, meetings and brand communications.

### Visuals that make every space amazing

Realise stunning visuals in meeting rooms, huddle spaces and reception areas with the AS-CLED138 adjustable stand that's compatible with Sony BH-series Crystal LED to create an immersive 138-inch display. Beautifully styled in premium materials, this video wall stand kit was named 'Best New Huddle Room Display' by AV industry news provider rAVe [PUBS] in their 'Best of ISE 2024' Awards.

### Incredible images anywhere

Break away from the confines of fixed video wall displays, and take extraordinary images wherever they're needed. Integrated handles and wheels make it possible to move the AS-CLED138 adjustable stand kit from one location to another if necessary.

Base includes integrated transportation wheels with brakes that can be locked firmly in position.

Ergonomic handles allow display and stand to be moved safely.

### A work of visual art

The Crystal LED Flexible Stand Kit is crafted with neat design touches in quality materials including natural wood veneers. It's a strikingly elegant addition to any open-plan workspace.

Convenient integral shelf in attractive wood veneer.

Sleek bezel with elegantly rounded corners adds stylish touch to any environment.

Equipment like laptops or Blu-ray players can be concealed neatly in the ventilated base.

Aesthetic back panel discreetly conceals rear of display with non-flammable fabric panels.

### Adjustable for every audience

Electrically controlled height adjustment allows the display to be raised or lowered to fit spaces with a maximum height of 2.37m and a minimum height of 1.97m

## Cut cable clutter

Intelligent cable management cuts the visual intrusion of unsightly power cords and connectors. So your audience can focus on beautiful images with fewer visual distractions.

The stand's clean, modern design conceals all cables and controllers from view, ensuring a minimalist, clutter-free appearance.

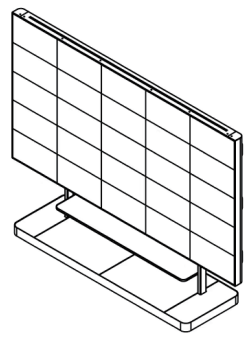

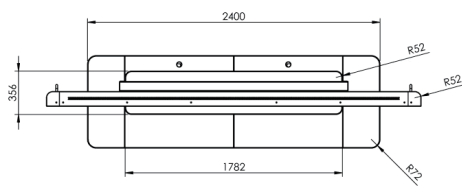

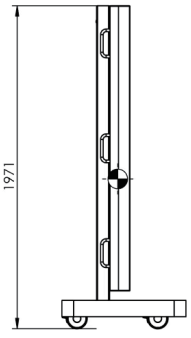

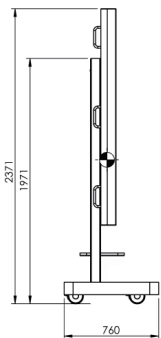

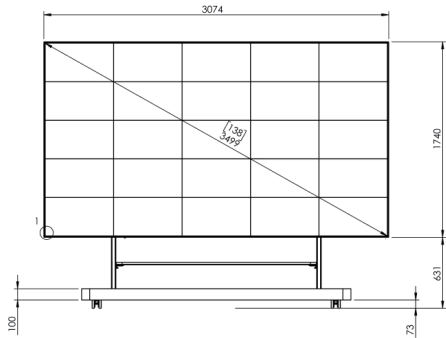

The stand kit includes a distributor that supplies power to all Crystal LED modules, with only two AC cables needed to power the whole display.

## Colours to complement any corporate space

The AS-CLED138 Crystal LED Flexible Stand Kit is available in an elegant white colour finish as standard. It can also be ordered in a choice of alternative colours to suit the aesthetic needs of any environment.
